1. Walk around inspection of the aircraft.
2. How to file a flight plan
3. Aircraft control surfaces
4. Career Guidance on becoming Commercial Pilot Licence.

Presentation on “New Age Careers” at St. Columbus School, New Delhi

ICRI aims to prepare future managers of tomorrow. With this vision of being an institution of global standing for making students ready for careers of tomorrow, ICRI took an initiative to have a discussion with students at St. Columbus School, New Delhi.

The session was all about “New Age Careers” which students can take up in the near future and be job ready.

Speakers

Our COO Mr. Kanishk Dugal

had an interactive session where he spoke about how students need to be careful while choosing their careers & how new age careers are shaping the Indian Economy.

Our Aviation Faculty, Ms Meenakshi Sangma, spoke about the most lucrative industry- Aviation. She gave insights of the aviation sector to the students and how they can shape up their careers in the most glamorous careers.

Our Artificial Intelligence Faculty, Mr Protik Biswas made students aware about how Artificial Intelligence, Machine Learning will be a game changer in the near future with huge employment opportunities in various sectors.
